Every first-year Ragin' Cajun is required to take UNIV 100 (First-Year Seminar), but unlike many of your other required courses, you may get to select a section of your choice. Instructors have designed these sections based on their passion and expertise. The class size is small, so you will be with other students you are excited about the same topic. You'll get to know your classmates and have a Peer Mentor to help you adjust to college-life academics and life. Take some time, explore the catalog, and choose a section before registering so your UNIV 100 course will be a good fit!

Title: Classical Music of World Wars

Section: 101 **CRN:** 24976 **Day/Time:** MW: 02:00 PM - 03:15 PM **Room:** TBA **Instructor:** Lim, Chankiat

Course Description: This course explores a rich catalogue of classical art music that was impacted by the World Wars. Despite the horror of wars, some of the most powerful and beautiful music was created, at times by necessity, as an outlet for expression, as a mean to escape, and as a tool for healing. The period of the World Wars witnessed the largest immigration within and from Europe since the Napoleonic Wars that included great thinkers, artists, and notable villains. This exchange resulted in a period of tremendous creativity where painters, sculptors, poets, writers, architects, and musicians gathered and interacted in new social settings. We will learn about the diverse selections of classical music repertoire that ranges from works composed during the war years to new works that pay tribute to the devastation of wars as well as their heroes. (No music background is required.)

Black people throughout the diaspora have been notoriously creative and innovative in expressing style through culture; especially when it comes to hair. However, this relationship with hair has also been historically loaded. Black hair has been framed by Western societies as negative and undesirable; therefore, leaving Black people vulnerable to specific types of discrimination. By restricting the way Black people groom and adorn themselves, society effectively silences them. In this course, we will look at the ways that Black people have resisted this silencing, even if this relationship with hair has often been ambivalent at best. By analyzing popular culture, literature, film, and academic texts we will try to untangle some of the complicated discourse around black hair.

Special/Restricted Sections

Some sections of UNIV 100 have special requirements or are restricted to certain populations. Please note the instructions for each group.

Honors Sections: Honors sections are open to all students, but students in the Honors Program may count any one of these sections of UNIV 100 towards their Honors' curriculum. Classes with section numbers beginning with an H (e.g. H01, H20), are honors section. These sections are distinguished by an emphasis on student-led, active learning, critical thinking, and presentations. Honors LLC students must take an honors section of UNIV 100.

Student Athletes: Student athletes should talk to their academic advisor about UNIV 100. They have likely already put you into a section.

Living Learning Communities: These students have already been added to the relevant UNIV 100 section. They may not change their schedule without dropping out of the Living Learning Community (which will change their housing assignment). Students in the Engineering, Nursing, Business, and Travel, Language, and Culture LLCs also have one or two additional courses on their schedules –they are in a cohort program and will need to stay in all of the courses already scheduled for them. If you have a conflict between one of the classes already added to your schedule and something else you need, please work with the LLC Advisor (Dr. Beth Giroir, <mailto:elizabeth.giroir@louisiana.edu>) before making any changes.

Online Section: First-time freshmen in fully online degree programs are required to take this section (X01). There is an additional Elearn course fee (\$30/credit hour, \$90 in total) associated with registering for the online section of this course. This E-Learn fee is in addition to the UNIV 100 course fee of \$95.00. Students who will be attending classes on campus may sign up for the online section (especially recommended if they have a full schedule of classes and cannot find an open section of UNIV 100). However, students who are attending classes on campus should plan to attend the Cajun Connection class day (August 22, 2019) and all students registering for the online section should ensure that they are ready to succeed in an online environment. For more information on online readiness, please refer students to the self-assessment provided by the Office of Distance Learning: <http://ullafayette.smartermeasure.com/>
